EXPERIENCE

Senior Software Engineer

TechVision Solutions, San Francisco, CA

2021 - Present

- Led development of microservices architecture serving 2M+ daily active users, reducing API response time by 45%
- Architected and implemented CI/CD pipeline using Jenkins and Docker, decreasing deployment time from 2 hours to 15 minutes
- Mentored team of 5 junior developers and conducted code reviews to maintain high code quality standards
- Designed and built real-time analytics dashboard using React and WebSocket, improving data visibility for stakeholders

Software Engineer

DataStream Analytics, Austin, TX

2019 - 2021

- Developed RESTful APIs using Python Flask and PostgreSQL, handling 500K+ requests per day
- Implemented automated testing suite with 85% code coverage, reducing production bugs by 60%
- Optimized database queries and indexing strategies, improving query performance by 3x
- Collaborated with product team to deliver 12+ features across web and mobile platforms

Junior Software Developer

CloudNet Systems, Seattle, WA

2017 - 2019

- Built responsive web applications using React, Redux, and Node.js for enterprise clients
- Integrated third-party payment APIs (Stripe, PayPal) processing \$2M+ in transactions monthly
- Participated in Agile development process with daily standups and bi-weekly sprint planning
- Created comprehensive technical documentation for internal APIs and development workflows

EDUCATION

Master of Science in Computer Science

Stanford University

2015 - 2017

GPA: 3.9

Bachelor of Science in Computer Engineering

University of California, Berkeley

2011 - 2015

GPA: 3.7

SKILLS

- Python (Django, Flask, FastAPI)
- JavaScript/TypeScript (React, Node.js, Express)
- Database Systems (PostgreSQL, MongoDB, Redis)
- Cloud Platforms (AWS, Google Cloud, Azure)
- DevOps (Docker, Kubernetes, Jenkins, GitHub Actions)
- System Design & Microservices Architecture
- RESTful APIs & GraphQL

- Agile/Scrum Methodologies

PROJECTS

E-Commerce Platform

Technologies: React, Node.js, PostgreSQL, Redis, AWS 2023 - 2024

- Built scalable e-commerce platform handling 100K+ daily transactions with 99.9% uptime
- Implemented real-time inventory management system reducing stock discrepancies by 80%
- Integrated Stripe payment gateway with fraud detection, processing \$5M+ in annual revenue

Open Source Contribution - Django REST Framework

Technologies: Python, Django, REST APIs

- Contributed 15+ pull requests to Django REST Framework, improving API serialization performance by 20%
- Authored documentation for authentication middleware used by 10K+ developers

CERFITICATIONS

- AWS Certified Solutions Architect - Associate
- Google Cloud Professional Developer
- Certified Kubernetes Application Developer (CKAD)
- MongoDB Certified Developer
